

A. Vypočítej.

$$47 + 18 + 3 = \square$$

$$73 - 11 + 23 = \square$$

$$9 + 30 + 10 - 13 = \square$$

$$55 + 41 - 4 = \square$$

$$60 - 21 + 9 = \square$$

$$17 - 2 + 17 + 35 = \square$$

$$58 - 18 - 13 = \square$$

B. Doplň výpočet.

$$19 + \square + 72 = 94$$

$$49 + 22 - \square = 5$$

$$\square + 2 + 22 = 89$$

$$47 + 7 - 21 - \square = 20$$

$$\square + 1 + 9 = 72$$

$$30 - 12 + \square + 1 = 33$$

$$42 - 15 - \square = 3$$
