

A. Vypočítej.

$$70 + 5 + 3 = \square$$

$$30 - 2 + 20 = \square$$

$$80 + 7 - 30 = \square$$

$$50 + 8 - 2 = \square$$

$$10 + 50 - 40 = \square$$

$$20 + 70 - 4 = \square$$

B. Doplň výpočet.

$$60 - \square + 2 = 32$$

$$30 + 40 + \square = 76$$

$$\square + 2 + 2 = 90$$

$$1 + 7 - 8 + \square = 20$$

$$\square + 1 + 9 = 59$$

$$2 + 2 + \square + 1 = 65$$
